DETAILED ACTION

1. Claims 1-27 have been cancelled.

Specification

2. The amendment filed 6/8/2000 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the newly added limitation precluding conjugated double bonds; the solution concentration in new claim 44. Negative limitations to amend claims around the prior art constitute new matter if not supported by the specification. *Ex Parte Grasselli*, 231 USPQ 393.

Applicant is required to cancel the new matter in the reply to this Office action.

Claim Rejections - 35 USC § 112

3. Claims 28-50 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention for the reasons stated above in the objection under 35 U.S.C. 132 of the

Art Unit: 1773

amendment filed 6/8/2000. Applicant should point out with specificity any alleged support for the amended claim language.

4. Claims 30-31, 42-47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 30 is vague and indefinite because the substituents for R are not specified.

Regarding claim 31, the phrase "particularly with the formula" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

In claims 42-43 the phrase "thin organic film" is vague and indefinite because "thin" is a relative term which is not adequately defined or specified

Response to Arguments

5. Applicant's arguments filed 6/8/2000 have been considered but are moot in view of the new ground(s) of rejection based on the presence of new matter. However, the Examiner makes **NO** concession as to the applicability or non-applicability of the previously cited prior art to the previously presented claims *or* to the claims as presently amended. The Examiner reserves any discussion as the merits of the previously cited prior art references until the issue of new matter has been resolved.
